RE: 13<sup>th</sup> La Jolla-International Cardiovascular Research Conference  
March 11-13, 2011

Dear Rebecca,

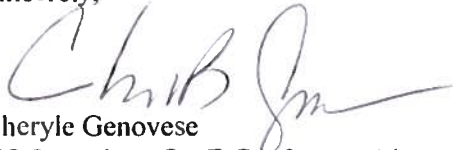

On behalf of the UC San Diego Continuing Medical Education staff and the faculty for the 13<sup>th</sup> La Jolla-International Cardiovascular Research Conference that was held at the Hilton La Jolla Torrey Pines Hotel from March 11-13, 2011, I would like to thank you and your entire staff for a great job.

Please express my thanks to each of the staff members (banquet serves and bartenders) that participated in our event. Paul Gutierrez was on for most of our meeting and he was on top of our every need and always with a smile. Matthew, Agnes and Jessie also did a terrific job supporting our group. The entire banquet staff was superb. They handled our requests quickly and in a friendly and gracious manner. They all did superior jobs in tending to our needs. All of the wait staff for the Friday and Saturday luncheons did a great job.

You have a great team! The comments we received from the participants were quite favorable regarding the overall quality and professionalism of the Hilton La Jolla Torrey Pines Hotel, your staff and service. Please be sure your GM sees this letter as he should know what a personable and hard working staff he has.

I look forward to working with you and your team on future conferences.

Sincerely,

Cheryle Genovese
